

Sunday Worship Service Safety Protocols

PLEASE NOTE: *The following safety protocols will be enlisted during our Sunday morning worship services. These protocols are based on best practices for group gatherings during the COVID-19 pandemic.*

What the Church Staff and Facilities will Provide for Individual Safety:

- Hand sanitizing stations will be provided throughout the building.
- Physical contact with non-family members will be discouraged.
- Necessary doors will be propped open.
- Worship Center seating will be spread out to allow 6 feet of separation to provide social distancing (family members can sit together)
- Ushers will seat people to aid with social distancing protocols.
- A three-seat separation on rows will be required between non-family members.
- Restrooms will be cleaned and sanitized before and after all services
- Worship Service hours will be at 9am and 11am to provide adequate time to clean and sanitize public spaces between services.
- All Team Members/Volunteers who will be in direct contact with church attendees will be asked to wear a facemask.
- No offering plates will be passed. Drop off stations for offering will be located outside the Worship Center doors.
- There will be no Nursery, Preschool, Children, or Youth programs provided during the Sunday Worship Services.

What is asked of people who will be attending our Worship Services:

- If you plan on attending a service in the building, you will be required to register online for the service you will be attending.
- If you are sick or are in a high-risk demographic, please continue to watch our livestream in the safety of your home.
- Help our church by self-monitoring social distancing etiquette by following safety protocols listed on this sheet and any additional protocols posted in the building.

IMPORTANT NOTE: *We will be limiting seating in our Worship Centers to maintain social distance requirements for each service. The Colonial Heights campus will be limited to 280 people per service hour and at the Midlothian campus it will be limited to 40 people per service hour. These safety procedures may be adjusted as needed as new information is updated during the pandemic.*
