## **Three Core Tenets**

### **1. Kids are a blessing**

Children are a blessing to be cherished and cared for, not a burden to be managed. This single truth completely reframes how we approach parenthood.

### **2. Family is God's idea**

Family is an idea birthed in the mind of God for his glory and the flourishing of humanity. Seeing its importance to God, inevitably shapes our priorities as parents and as a couple.

### **3. Parenting is discipleship**

Every moment with our children is an opportunity for discipleship. This perspective drastically changes how we instruct and interact with them at their various ages and stages.
